

A Season For... Template

For Young Writers

Written & Illustrated By:

Introduction:

What sport or activity are you writing about?
In what season do you typically do this activity?

Season:

Describe the season in which the activity occurs.
When does the season occur?
What is the weather like?
What does it look like outside?

Activity:

What sport or activity did you choose?

How is this activity done or played?

How do you feel when you do this activity?

How does this activity affect the community?

People have jobs
because parents
pay money for their
kids to play that
sport.

Our community is
healthier because
this activity makes
us exercise.

People visit our
community/state in
order to do this
activity and that
brings in money for
our state /
community.

We buy stuff in
order to do that
activity and that
lets that business
stay open.
