

Essential Questions & Research

Objectives:

- Understand all research begins with a question.
- Evaluate informational texts in order to determine the question the author was trying to answer or explain.
- Develop questions to guide their research.

Procedure:

- Remind students all research begins with a question that needs to be answered or explained.
- Explain that authors of informational books also begin with a question or a topic that needs explaining.
- Students will read informational texts, evaluating them to determine what question the author was trying to answer or explain.
- Students will discuss their findings and opinions with classmates.
- Students will brainstorm questions on a topic they would like to research.
