

Simon Says...

“Prepositions Are Fun!”

Procedure:

- Teacher should begin by reminding students about the importance of careful listening.
- Teacher leads a game of Simon Says, focusing on the most commonly used prepositions.
- Rather than having students “go out” - have students keep track of each direction they follow correctly (tallies or chips).

Variations:

- Students should brainstorm the specific prepositions that were used during the game.
- The winning student(s) may lead the next round.
