

Shared Research

Procedure:

- Once a topic is selected, the teacher will model how to research the topic.
 - Students will be prompted to ask questions about the topic.
 - The teacher will model using a search engine (Ex: GOOGLE) to find answers to the questions raised.
 - Key Words
 - Selecting a Source (from the results)
- Teacher will organize information found using a graphic organizer.
 - Paraphrasing Information is key.
- Students should write an informational piece (sentence with corresponding drawing) using some of the information from the graphic organizer.
